BILLING CODE 4910-62-M

Federal Aviation Administration

Noise Exposure Map Notice, Receipt of Noise Compatibility Program and Request for Review; Austin Straubel International Airport, Green Bay, WI

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces its determination that the noise exposure maps submitted by Brown County for Austin Straubel International Airport under the provisions of title I of the Aviation Safety and Noise Abatement Act of 1979 (Pub. L. 96-193) and 14 CFR part 150 are in compliance with applicable requirements. The FAA also announces that it is reviewing a proposed noise compatibility program that was submitted for Austin Straubel International Airport under part 150 in conjunction with the noise exposure map, and that this program will be approved or disapproved on or before July 19, 1995.

EFFECTIVE DATE: The effective date of the FAA's determination on the noise exposure maps and of the start of its review of the associated noise compatibility program is January 20, 1995. The public comment period ends March 21, 1995.

FOR FURTHER INFORMATION CONTACT: William J. Flanagan, Federal Aviation Administration, Airports District Office, room 102, 6020 28th Avenue South, Minneapolis, Minnesota 55450, (612) 725-4463. Comments on the proposed noise compatibility program should also be submitted to the above office.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA finds that the noise exposure maps submitted for Austin Straubel International Airport are in compliance with applicable requirements of part 150, effective January 20, 1995. Further, FAA is reviewing a proposed noise compatibility program for that airport which will be approved or disapproved on or before July 19, 1995. This notice also announces the availability of this program for public review and comment.

Under section 103 of title I of the Aviation Safety and Noise Abatement Act of 1979 (hereinafter referred to as "the Act"), an airport operator may submit to the FAA noise exposure maps which meet applicable regulations and which depict noncompatible land uses as of the date of submission of such maps, a description of projected aircraft operations, and the ways in which such operations will affect such maps. The Act requires such maps to be developed in consultation with interested and affected parties in the local community, government agencies, and persons using the airport.

An airport operator who has submitted noise exposure maps that are found by FAA to be in compliance with the requirements of Federal Aviation Regulations (FAR) part 150, promulgated pursuant to title I of the Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes for the reduction of existing noncompatible uses and for the prevention of the introduction of additional noncompatible uses.

Brown County submitted to the FAA on July 28, 1993, noise exposure maps, descriptions and other documentation which were produced during the FAR part 150 Noise compatibility Study from July 1991 to November 1994. It was requested that the FAA review this material as the noise exposure maps, as described in section 103(a)(1) of the Act, and that the noise mitigation measures, to be implemented jointly by the airport and surrounding communities, be approved as a noise compatibility program under section 104(b) of the Act.

The FAA has completed its review of the noise exposure maps and related descriptions submitted by Brown County. The specific maps under consideration are the 1992 existing Noise Exposure Map and the 1997 future Noise Exposure Map. The FAA has determined that these maps for Austin Straubel International Airport are in compliance with applicable requirements. This determination is effective on January 20, 1995. FAA's determination on an airport operator's noise exposure maps is limited to a finding that the maps were developed in accordance with the procedures contained in appendix A of FAR part 150. Such determination does not constitute approval of the applicant's data, information or plans, or a commitment to approve a noise compatibility program or to fund the implementation of that program.

If questions arise concerning the prices relationship of specific properties to noise exposure contours depicted on

a noise exposure map submitted under section 103 of the Act, it should be noted that the FAA is not involved in any way in determining the relative locations of specific properties with regard to the depicted noise contours, or in interpreting the noise exposure maps to resolve questions concerning, for example, which properties should be covered by the provisions of section 107 of the Act. These functions are inseparable from the ultimate land use control and planning responsibilities of local government. These local responsibilities are not changed in any way under part 150 or through FAA's review of noise exposure maps. Therefore, the responsibility for the detail overlaying of noise exposure contours onto the map depicting properties on the surface rests exclusively with the airport operator who submitted those maps, or with those public agencies and planning agencies with which consultation is required under section 103 of the Act. The FAA has relied on the certification by the airport operator under section 150.21 of FAR part 150, that the statutory required consultation has been accomplished.

The FAA has formally received the noise compatibility program for Austin Straubel International Airport, also effective on January 20, 1995. Preliminary review of the submitted material indicates that it conforms to the requirements for the submittal of noise compatibility programs, but that further review will be necessary prior to approval or disapproval of the program. The formal review period, limited by law to a maximum of 180 days, will be completed on or before July 19, 1995.

The FAA's detailed evaluation will be conducted under the provisions of 14 CFR part 150, § 150.33. The primary considerations in the evaluation process are whether the proposed measures may reduce the level of aviation safety, create an undue burden on interstate or foreign commerce, or be reasonably consistent with obtaining the goal of reducing existing noncompatible land uses and preventing the introduction of additional noncompatible land uses.

Interested persons are invited to comment on the proposed program with specific reference to these factors. All comments, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable. Copies of the noise exposure maps, the FAA's evaluation of the maps, and the proposed noise compatibility program are available for reexamination at the following locations:

Federal Aviation Administration, 800 Independence Avenue SW., Room 617, Washington, D.C. 20591

Federal Aviation Administration, Minneapolis Airports District Office, Room 102, 6020 28th Avenue South, Minneapolis, Minnesota 55450

Office of the Airport Director, Austin Straubel International Airport, 2077 Airport Drive, Green Bay, Wisconsin 54313

Brown County Library, 515 Pine Street, Green Bay, Wisconsin 54301

Wisconsin Bureau of Aeronautics, State Transportation building, Room 701, 4802 Sheboygan Avenue, Madison, Wisconsin 53707.

Questions may be directed to the individual named above under the heading, **FOR FURTHER INFORMATION CONTACT.**

Issued in Minneapolis, Minnesota, January 20, 1995.

Franklin D. Benson,

Manager, Minneapolis Airports District Office, FAA Great Lakes Region.

BILLING CODE 4910-13-M

Change #2 to FAA P-8110-2, Airship Design Criteria (ADC)

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of availability.

SUMMARY: This notice announces the availability of Change #2 to FAA P-8110-2, Airship Design Criteria (ADC) dated November 2, 1987. This change adds the requirements for fly-by-light control systems. Two new paragraphs have been added to the ADC that cover concerns related to optical couplings and optical degradation. The requirements for a control system not directly (mechanically) connected to the control surface are applicable to both fly-by-wire and fly-by-light. The fiber optics used in fly-by-light systems, though immune to some of the problems associated with fly-by-wire systems, have their own set of problems. Those problems are addressed in this change.

ADDRESSES: Copies of Change #2 can be obtained from the following: Small Airplane Directorate, Standards Office (ACE-110), Aircraft Certification Service, Federal Aviation Administration, 601 East 12th Street, Kansas City, Missouri 64106.

FOR FURTHER INFORMATION CONTACT:

Terre Flynn, Standards Staff (ACE-110), telephone number (816) 426-6941.

Issued in Kansas City, Missouri, February 6, 1995.

Michael K. Dahl,

Acting Manager, Small Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-M

Intent To Rule on Application Use the Revenues From a Passenger Facility Charge (PFC) at Albany County Airport, Albany, NY

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of intent to rule on application.

SUMMARY: The FAA proposes to rule and invites public comment on the application to use the revenues from a PFC at Albany County Airport under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IX of the Omnibus Budget Reconciliation Act of 1990) (Public Law 101-508) and Part 158 of the Federal Aviation Regulations (14 CFR Part 158).

DATES: Comments must be received on or before March 23, 1995.

ADDRESSES: Comments on this application may be mailed or delivered in triplicate to the FAA at the following address: Mr. Philip Brito, Manager New York Airports District Office, 181 South Franklin Avenue, Room 305, Valley Stream, New York 11581.

In addition, one copy of any comments submitted to the FAA must be mailed or delivered to Michael N. Polovina, Director of the Albany County Airport, at the following address: Albany County Airport, ARFF Building, 2nd. Floor, Albany, New York 12211.

Air carriers and foreign air carriers may submit copies of written comments previously provided to the County of Albany under section 158.23 of Part 158.

FOR FURTHER INFORMATION CONTACT: Mr. Philip Brito, Manager of the New York Airports District Office, 181 South Franklin Avenue, Room 305, Valley Stream, New York, 11581, Tel. (718) 553-18182. The application may be reviewed in person at this same location.

SUPPLEMENTARY INFORMATION: The FAA proposes to rule and invites public comment on the application to use the revenues from a PFC at Albany County Airport under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IX of the Omnibus Budget Reconciliation Act. Any person may inspect the application in person at the FAA office listed above under **FOR**

FURTHER INFORMATION CONTACT and at the FAA regional Airports office located at: Fitzgerald Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430.

In addition, any person may, upon request, inspect the application, notice and other documents germane to the application in person at the Albany County Airport.

Issued in Jamaica, New York State on February 1, 1995.

Anthony P. Spera,

Acting Manager, Airports Division, Eastern Region.

BILLING CODE 4910-13-M

Federal Highway Administration

Environmental Impact Statement; Marion, Lake and Volusia Counties, FL

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement (EIS) will be prepared for a proposed highway project in Marion, Lake and Volusia Counties, Florida.

FOR FURTHER INFORMATION CONTACT: Mr. Jim Travis, Transportation Engineer, Federal Highway Administration, 227 N. Bronough Street, Room 2015, Tallahassee, Florida 32301, (904) 942-9579; or Mr. William F. Sloup, P.E., Project Manager, Florida Department of Transportation, 719 S. Woodland Blvd, DeLand, Florida 32720, (904) 943-5406.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the U.S. Forest Service, the U.S. Coast Guard and the Florida Department of Transportation will prepare an EIS for a proposal to improve SR 40 in Marion, Lake and Volusia Counties, Florida. The proposed improvement would involve the reconstruction of SR 40 from the end of the 4-lanes in Silver Springs, Marion County to US 17/92 Barberville, Volusia County, a distance of 40 miles with 27 miles within the Ocala National Forest. Improvement to the corridor are considered necessary to provide for projected traffic demands and to meet the required Florida Intrastate Highway Systems (FIHS) minimum standards. The FIHS is a legislatively established interconnected system of limited and controlled access facilities designed for high speed, high volume traffic movements. SR 40 from CR 326 in Marion County to Interstate 95 in Volusia County has been designated as part of the FIHS.
